65mm SLIDING WINDOW SYSTEM

ENOVATION Sliding Windows are the most popular of the range, as they don't project into walkways but still allow the maximum of light and breeze when required.

The smooth operation of the **ENOVATION Sliding Window System** combined with strength, performance and reliability makes it an **Ezi** choice for your project. The System is suited to **Apartments, Units, Low Rise Commercial and Architecturally designed housing.**

It Looks Robust – It is Robust!

Heavy Duty Components for high wind load areas are also available to suit our 65mm frame creating a solid feature. The outer frame, available in 25mm and 16mm face depths is durable and functional.

Glazing Options:

Can be glazed in a myriad of glass choices ranging in thickness from 4.0mm – 8.38mm glass Single Glazed. So when combined with our heavy duty mullions and transoms, allows for bigger opening sizes for a variety of projects.

Hi – Performance Fin Seals result in a better sealed window mitigating hot or cold air transfer and reduced sound transmission creating a more comfortable living space, reducing your energy bills and your carbon footprint.

No sharp edges or internal unsightly protrusions to interfere with window treatments, leaving clean sight lines and allowing for *Ezi* cleaning.

Soft curved mullions & transoms give the window that contemporary aesthetic sought by today's home owner which will compliment any modern décor.

The **EZI-SLIDE Ball Bearing Roller** gives you consistent, reliable sliding performance ongoing.

Incorporated screening provisions and key operable sash locks provides for the highest levels of security – real peace of mind!

Designed to Comply with Australian Standards AS2047.

EURO STYLE – The clean lines and smooth curves of the ENOVATION Window & Door Systems will compliment the most modern & contemporary of designs. When combined with the other hi- performance features, you not only get the most attractive but also the highest strength windows & doors as well!

EFFORTLESS OPERATION - ENOVATION Window & Door Systems are designed to last, which means you will have smooth operating windows & doors, that will stay trouble free, well into the future!

ECONOMICAL- The ENOVATION Window & Door System provides true value when you compare the extra benefits offered by the flexibility and functionality of the system at the best possible value for money!

EXTRA CHOICES – The wide range of modular combinations available to select from in the ENOVATION Window & Door range, complimented by our ALFRESCO Bifold Doors & Windows plus the COMMERCE Commercial Window and Door system, allows you to create the exact window & door solution to suit your needs. The choice is all yours!!!!

ENERGY EFFICIENT DESIGN – Save \$\$\$\$\$. All the ENOVATION Window & Door Systems utilise our revolutionary EZI-Seal Weather Seal Technology, which allows you to substantially decrease your energy bills, by stopping the transfer of hot or cold air between the inside & the outside environment. This reduced air leakage means your air-conditioning unit doesn't have to work as hard to maintain your comfort levels, or by opening and closing your ENOVATION Windows or Doors selectively, naturally vent your house, to maintain your comfort levels – truly Clever Climate Control within your own environment!

ENVIRONMENTALLY FRIENDLY- The major components of the ENOVATION Window & Door System are locally sourced to ensure the products all have the smallest carbon footprint possible. Which is all good for the environment!
