## ***SLIDING WINDOW***

The most popular of the range, as they don't project into walkways but still allows the maximum amount of light and breeze when required.

The smooth operation of the ENOVATION Sliding Window System combined with strength, performance and reliability makes it an Ezi choice for your next project.

The ENOVATION Sliding Window is suited to Apartments, Units, Low Rise Commercial and Architecturally Designed Housing.

It Looks Robust – It is Robust!

Available in frame widths of 50mm, 65mm and 101.6mm.

# COMFORT

## ***AWNING WINDOW***

Control Your Climate

On those days you want to let the outdoors in, the ENOVATION Awning Window can be easily operated to let the cooling breezes in whilst the hood of the sash keeps the rain out. Giving you complete control over your own climate!

Application Range

With a large application range, the smooth lines of the ENOVATION Awning Window will match any Architectural style you wish to create to suit your tastes.

# ***DOUBLE HUNG WINDOW***

Create a natural movement of air from inside to outside, but once closed the EZI-SEAL Technology will keep the unwanted elements & noise out.

The ENOVATION Double Hung Window is suitable for both Traditional and Contemporary Homes, Low Rise Commercial Buildings, Apartments, Units and Architect Designed Residences.

The sashes have been designed to slide past each other effortlessly, allowing air to be vented at the top, at the bottom or both at the same time providing a maximum opening of one half of the window area.

# BREATHE

# ***OPERABLE LOUVRE***

The ENOVATION Operable Louvre Window Range is second to none when you want to connect with the outdoors inviting fresh breezes and natural light into your world. Louvres really let your environment breathe naturally and let cooling summer breezes do their job efficiently.

Ezi Living

With louvres you can instantly adjust the amount of ventilation to suit your comfort without the cost of running expensive air conditioning.

# STYLE

## **30mm SLIDING DOOR**

The ENOVATION 30mm Sliding Door range gives you choices, be it the choice to connect with the outside world, or choosing to keep the elements out, utilizing the unique EZI-SEAL technology.

Suitable for projects including, Private Residential, High Rise Apartments, Commercial, Restaurants and more.

The ENOVATION 30mm Sliding Door allows you to create openings up to 12.0m wide by 2750 high or even 90 degree corner units of 6.0m each way.
